

"SHOE PULLERS" IN SALT LAKE

"SHOE pullers" are to be found in Salt Lake City as well as in New York, according to a local physician.

The New York Journal, in a recent issue, declared that a peculiar form of foot cramp, characterized by piercing and almost unbearable pains through the toes, has appeared in Gotham and is becoming epidemic. The afflicted can secure relief only by removing their shoes, which they are driven to do at the most inopportune time and in the most public places. This peculiar ailment, which has been dubbed "shoe pullers," has caused them to be.

The Journal story was shown to County Physician H. N. Mayo yesterday, and he was asked whether the same complaint existed here.

"It does," he said, "and it is called 'flat foot,' a descriptive term, because of the breaking down of the arch of the foot, which gets the weight, or nerves, crossed and causes the pain."

"Is it something new?"

"No. I have heard of cases ever since I began practicing and have treated several. Most of my patients have been merchants, clerks, peddlers, street-car men and other persons who are on their feet a great deal. If they carry heavy weights the trouble is likely to be induced, because when the muscles of the foot are not strong enough to sustain the body that flat foot is acquired."

"If there is any absolute cure I have not heard of it, but the suffering can be relieved by a mechanical device which assists the weakened muscles."

MANY YOUNG MEN WANT GOVERNMENT JOBS

Thirteen young men have filed notice of their intention to take the civil service examination in the engineering department of Government work, which is to open at 9 a. m. today in the Federal courtroom in the Dooly block. In addition to these are eight applicants for the examination for admission to the United States Naval Academy. Those who are taking the examination in engineering work are divided among the different departments of the work as follows: 1. Topographic, 2. coast and geodetic survey, 3. topographic, land office survey, 2. engineer and hydrographic, 3. topographic, 4. draughtsman and copyist, 5. topographic, 6. draughtsman, 1. Among those who are to take examinations are: T. Clark, Clifton, P. D. Pyle and H. W. Shelly, who are now employed on the temporary force in the office of Prof. George L. Swendsen, chairman of the civil service commission, and a service in Utah. The civil service examination will occupy at least two days.

READING AND MUSIC FOR THE PIANO FUND

Hattie Morse Hamberger, who is known to many in this city as a reader of very great ability, will appear at the concert to be given Thursday evening at the First Congregational church for the benefit of the kindergarten piano fund. Mrs. Hamberger is a graduate of the Emerson College of Oratory, Boston, and since taking up the work of a professional reader and story-teller has won the most flattering praise from the press of the East, the West and Canada.

The Grapheus club will also assist in this entertainment, and music-lovers are assured of a treat from this popular orator. Admission is free, but a voluntary contribution will be taken for the benefit of the kindergarten piano fund.

AND PITY 'TIS, 'TIS TRUE.

Editor Tribune.—In The Tribune of today, someone signing "A Transient" made inquiry of you as to what the ordinances of Salt Lake require of drivers of wheeled conveyances of the custom and courtesy "to the right," so generally observed in most cities.

Your answer that it was "never heard of here," while terse, tells all that any resident, provincial or cosmopolitan, who has pride and hope for his home community can say. It should be matter of regret to all residents of Salt Lake to be compelled to have such an admission made.

But the manner in which transient drivers and drivers generally scurry helter-skelter along the thoroughfares and keep even old residents, who have to some extent become accustomed to the most unruly and busy in saving themselves from mishap, enables one to appreciate the "Transient's" astonishment. They accept the situation and for no better reason, I judge, than that it seems an established condition.

Will it not be to the interest of Salt Lake to remember that visitors and transients may not be so willing to accept such customs and conditions as are evident upon our streets? Is it not better to try to change the bad habits of transients or ourselves any longer. It appears to the writer that if the Commercial club will add an endeavor to correct the evil of "to the right" to the right side of the street and say there, "it should be the order."

A CITIZEN.
Salt Lake City, April 19th.

MEMORY MAKER

Food With Certain Elements Required in the Brain.

Poor memory means an ill-nourished brain. The proper food to help and nourish the brain will thus help the memory, as in the following case:

"I have not known what it is to enjoy real good health, not having seen a well day in over 20 years and taking medicine most of that time until about a year ago."

"At that time I was suffering greatly from nervous prostration and general debility, the result of several severe illnesses from which I never expected to fully recover."

"My memory was also so poor that it caused me much chagrin at times."

"I had often heard how Grape-Nuts had helped other people's memory, and that it was a brain food. Finally I was put on Grape-Nuts for my meals."

"It was so pleasing to the taste I enjoyed eating it and after a time I saw such an improvement in my health generally that I gave up the medicine altogether. Am not even using laxatives now that I had been unable to do without for years. Grape-Nuts helped my nerves, gave me strength, increased my weight ten pounds and I can now work and walk better and enjoy life as I never expected to again."

"When my friends remark how well I look and act I tell them it is all due to Grape-Nuts. My doctor never sees me but he smiles with genuine pleasure at my improved condition, for he is an old friend and would like to see me perfectly well, knowing how long and how much I have suffered." Name given by Postum Co., Battle Creek, Mich.

STARTLING CASE OF HIDING SMALLPOX

Family of Ernest Luce Violate the Quarantine Law and Defy the Officers.

Most thrilling was the case of smallpox concealment discovered yesterday by Quarantine Inspector Fowler. Ernest Luce was confined in the quarantine hospital with the disease on March 25th. He had been living with his parents at 553 East Eighth South street and about a week ago it appears the father of the young man came down with the malady. The wife and other members of the family have kept the case quiet as far as possible, but the neighbors finally became alarmed and notified the Health department.

Inspector Fowler was sent to the house yesterday. He was found on the doorstep by Mrs. Luce, who had just alighted from a street car after a visit to the business district. She refused to admit him and only after he had threatened to break down the door did she permit him to enter. The inspector saw at a glance that the man, who is about 50 years old, was well broken out with the disease. During the past week the wife and other members of the family have been going about without the least compunction as to the results of their carelessness and it is more than probable that many others in the neighborhood will be taken down with the smallpox. Mr. Luce was taken to the quarantine hospital.

The discovery of a case of smallpox on Commercial street led to the investigation of conditions in the underworld by the Health department. It was found that out of 12 fallen women examined that twelve had never been vaccinated and that the others were, with very few exceptions, vaccinations of long standing. It is understood that these women will have to be vaccinated or leave the city.

Another case of smallpox that was reported yesterday was reported on April 11th as typhoid fever. Since that date the patient has been under the quarantine regulations for typhoid fever and it is supposed that the neighboring families have been exposed to the real disease. The patient is Ralph Wagner, who is a brother to Abe Majors, the life convict. Wagner was taken from his home 636 South First street, to the quarantine hospital yesterday.

Other cases taken to the hospital yesterday were as follows: Fred Harris, aged 29, 553 Fifth street; Charles Burt, aged 29, southeast corner of Fifth and 11th streets; Joseph E. Carroll, aged 19, 7 Simondt avenue; Mary Purcell, aged 21, 173 E street; Mrs. Thomas Evans, aged 27 years, was quarantined at her home, 25 North Fifth West street.

REFUSE TO BE LEFT IN THE BACKGROUND

Society of Utah Artists Claims to Be Very Much Alive, and Ready for Business.

At the last annual meeting of the Society of Utah Artists, attention was called to the fact that the president of the Utah Art Institute had, a short time before, been quoted by the daily press of this city as saying that the Society of Utah Artists, "though now in the background, still claims an existence, and that its practical work as a body ceased with the establishment of the Utah Art Institute." It was therefore unanimously resolved at the meeting of the society that the press be furnished with correct information as to the present status of the society by way of correction of any erroneous impression that may have resulted from the press statement mentioned.

The practical work of the Society of Utah Artists did not by any means cease with the establishment of the Utah Art Institute, and the society merely suspended exhibitions during the time that its members contributed to the displays of the institute. Its members are not in any way connected with or interested in the Utah Art Institute, that organization having failed in the object with which it originally started. As to the society being now in the background, it is only necessary to state that it is actively engaged in the work with which it began, the primary aim of which is the uplifting of the cause of art in Utah, unhampered by political, personal or other prejudice, and it is now proposing to hold regular exhibitions as in the past. The following is the roll of active members, all of whom are quietly and harmoniously working at their profession: James T. Harwood, Edwin Evans, John Hafen, J. W. Clawson, J. B. Fairbanks, Loren Pratt, Daniel Wegeland, L. A. Ramsey and G. W. Browning. There are also a number of worthy and eligible students abroad at present, who will be admitted to membership.

At the meeting above mentioned the future work was briefly outlined, and it was decided to hold the next exhibition during the coming autumn, formal announcement of which will be made in due time.

PAVING MATERIAL FROM UTAH

S. P. Barron Tells of the Asphaltum and Gilsomite Interests on the Reservation.

S. P. Barron, vice-president and general manager of the American Asphalt association, St. Louis, spent yesterday in Salt Lake City. He said to a Tribune representative that the developments being made in the asphaltum and gilsomite deposits on the Uintah reservation would have a vast effect on the commercial and industrial interests of Utah. He further said that the work was progressing rapidly upon the railroad which would soon be transporting the raw material from the mines to trunk line transportation and that some time next year the Moffat line would be completed through the deposits and afford additional transportation facilities and keep rivalry.

It seems that there are two gilsomite or asphaltum companies interested in the deposits, which are opened up by the recent act of Congress, and that there is not going to be a monopoly of street paving and painting and other materials taken from the Uintah reservation after the transportation has been opened. In fact, there is already sharp rivalry between the two corporations in the matter of material and price.

SMALL CHILD MANGLED BY TRAIN AT TOPAZ

Special to The Tribune.

POCATELLO, Ida., April 18.—Near Topaz, the first siding east of McCommom, the eastbound passenger train ran over and killed the two-year-old child of S. J. Palmer, a rancher who lives near the road. The entire train ran over the body, which was mangled beyond recognition. The father must have witnessed the accident, for he had gathered up the mangled remains of his child before the train crew got back to the scene; after the train had been brought to a stop.

A Pill in Time

will save a serious sickness, especially to people subject to Bilious attacks, Sick Headaches or who suffer from Stomach disorders. A pill in need is a friend indeed, and you should never be without a box of

Beecham's Pills

JUDGE THEO. MAYER TALKS TO THE SICK

If you are run down, worn out, get up in the morning almost as tired as when you go to bed, need a rest the worst way but cannot spare the time—cannot afford to take your hands off the tiller of your work—then, says Judge Theodore Mayer, of Chicago's famous Chicago Avenue Police Court, you are in just the condition I was in a while back.

"Owing to the sedentary nature of my occupation, six months ago I felt decidedly out of sorts and I thought I would have to lay aside my judicial duties and spend some time at a health resort. My appetite began to fail me and I was subject to a condition of general lassitude."

"A physician who is one of my intimate friends told me that I exhibited the primary symptoms of catarrh of the stomach. I was about to put myself under his particular care when I heard from a number of the police officers attached to the station that they had been relieved of similar ailments through the use of Mucu-Tone, so I sent to the United Drug Co. at Boston for a trial bottle. What the real nature of my ailment was I cannot say. It has gone now, and I am as well as I have ever been in my life. A few bottles of the remedy removed the last vestige of my trouble. Having received such beneficial results from it, I have no hesitation in recommending Mucu-Tone."

Theodore C. Mayer

Judge Theodore Mayer presides at the Chicago Avenue Police court, a court famous in Chicago's criminal history. Here it was that the anarchists were arraigned; later the Cronin murder suspects and Adolph L. Utger, the wife murderer. Judge Mayer is in close touch with the vast cosmopolitan population of Chicago. Within his jurisdiction great colonies from all the nations of Europe have made their homes. He is known personally to thousands in all walks of life and he has a broad sympathy with the hopes and aspirations of the great body of the common people. Stern and severe when occasion demands, he is still the soul of sympathy when misfortune and misadventure bring a prisoner before him. His advice is frequently sought by the residents of his territory and frequently personal differences which might lead to expensive litigation are adjusted through his wise counsel. He comes from distinguished German ancestry and numbers among his intimate friends the leading German-Americans of Chicago.

Working through the starved bloodvessels, Rexall Mucu-Tone drives out the catarrhal poison, stimulates the mucous cells into the active exercise of their functions, fills the arteries with rich, red blood, tones up the stomach, restores the appetite and builds up the body.

There is no slow, uphill work about this. From the very first dose its strengthening influence will be felt. Lethargy and pain will slip away and in their place will come the fresh, buoyant vigor and power of application of the long ago.

Don't be skeptical; don't wait until you are flat on your back. But give Rexall Mucu-Tone a trial—just one trial. If you do, feel better immediately you can stop taking it and we will give back your money.

Sold only at our store.

LEGAL FIGHT FOR GIRL AND \$20,000

Complications Growing Out of Adoption When the Father Was Dying, but Didn't.

CHICAGO, April 18.—To prevent the removal of his 8-year-old child, Alice Catherine Dagg, to Portland, Ore., William Dagg has begun suit here to annul a decree of adoption. At the time Dagg's petition was made today the custody of the child was in contest in another court here, Mrs. Catherine Cannon, her foster-mother, demanding the child's care, the demand being opposed by Dr. and Mrs. J. F. Williams.

When the mother of Alice died, four years ago, the girl's father was thought to be near death from a critical illness. At that time Dr. Joseph Cannon, who was Dagg's consent, adopted the child. Six weeks later the Cannons left the child with Dr. and Mrs. Williams, where she has since spent most of her life.

Instead of dying, as was expected, Dagg recovered, returned to Chicago for nearly two years has been paying Mr. Williams for the care of his daughter.

Mrs. Cannon, who had removed to Portland, recently returned to Chicago and demanded her adopted daughter from Williams, but was refused, the latter declaring that she had abandoned the child. The little girl is an heiress to a \$20,000 estate.

INDIANA BANK GOES INTO LIQUIDATION

RENSSELAER, Ind., April 18.—McCoy's bank failed to open today and it will go into liquidation. It was the oldest banking institution in the county and is owned by Albert and Thomas McCoy, heavy land owners. Both are in poor health. It is promised that the bank will pay out in full. The debts amount to \$250,000.

A. McCoy and his son, Thomas J. McCoy, members of the Republican State committee from the Tenth district, filed bankruptcy assets returned today to the Circuit court. No schedule was filed, but it is estimated that the assets are \$350,000 and the liabilities \$200,000.

Created Wealth \$20,000

and yet you can purchase in the Big Horn Basin of Wyoming and in the North Platte Valley of Nebraska irrigated land for \$15 an acre up, where climatic conditions are healthful and exhilarating, where the water supply is plentiful and inexhaustible, and where fuel is abundant and cheap.
